EXPERIENCE

Principal Consultant| KHD Consulting LLC, Lithonia, GA | May '25 - Present

Provide CRM support, integration and training services for nonprofits and SMB's using Salesforce or other CRM platforms with a focus on system configuration, optimization and user training.

● Conduct system audits, implement optimization plans, and build automations to support fundraising, data reporting and user engagement.

● Develop onboarding documentation and lead CRM training workshops focused on system updates, reporting, data quality, and workflow improvements.

● Provide Tier 1, Tier 2 and advanced technical support across Salesforce based organizations resolving but not limited to system errors, billing, and configuration issues.

Client Support Specialist-MyClubHub| Boys & Girls Clubs of America, Atlanta, GA | May '24 - Jun'25

Supported 100+ Boys and Girls Clubs across America by configuring Salesforce, resolving complex issues via tickets, building reports, and automations.

● Provided Tier II Salesforce support for 100+ clubs, resolving complex tickets and configuring across Sales Cloud, Service Cloud, Experience Cloud, NPSP, and Field Service Lightning.

● Built flows, dashboards, and roll-up summaries to support reporting accuracy for executives.

● Edited and updated Experience Cloud websites/portals, improving UX/UI for parents and members.

● Delivered training and documentation for staff, contributing to a 90% adoption satisfaction rate of MyClubHub/Salesforce among Clubs.

Salesforce Associate Project Manager (Volunteer)| Riverside Epicenter, Austell, GA | Oct '22 – Jun '23

Supported process improvements through Salesforce automations and KPI tracking.

● Partnered with the implementation team and Sales Manager to launch Salesforce with CPQ/Revenue Cloud for event planning and A/V rentals.

● Configured quoting, pricing workflows, and contracts, ensuring accuracy and revenue visibility

● Redesigned sales workflows and automated processes, increasing efficiency by 25% and reducing manual workload by 20%.

Salesforce Administrator Trainee| Climb Hire, Berkley, CA | May '22 – Oct '22

Completed hands on Salesforce Administrator track and gained practical Salesforce administration experience through simulated projects, applying platform knowledge to business use cases.

● Built and customized Salesforce solutions across Sales, Experience, and Service clouds, configuring leads to opportunity processes, dashboards, page layouts, and automated approval flows.

● Developed a secure app for a community clinic, improving record access and reducing manual labor by 40.

Projects

Salesforce NPSP Implementation | Designed a nonprofit Salesforce solution including data migration, field customization, and donation tracking.

CRM Onboarding Program| Delivered hands-on training for a marketing team and interns on CRM integrations and best practices.

Email & Engagement Reporting | Aligned campaign performance reports in Salesforce and other third party applications to support nonprofit outreach and donor retention goals.

Third Party Integration Rollout | Integrated tools like Eventbrite, Donorbox, and Mailchimp, to support fundraising events and automated communications.
API Integration Support | Collaborated on REST API based connections between CRM platforms and fundraising tools to ensure data consistency and system interoperability.
